

Education Security Solutions

Reimagining how students
move through their world

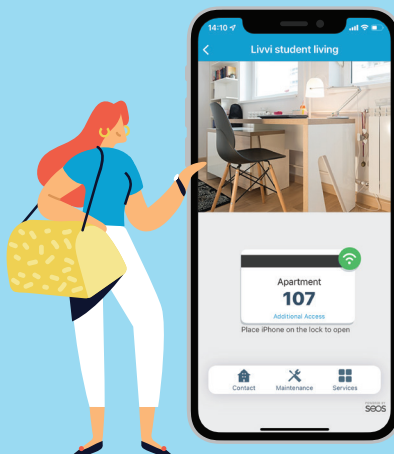

vingcard
ASSA ABLOY

Experience a safer
and more open world

Livvi – MOBILE ACCESS APP

Our own off-the-shelf mobile access solution. Students can use the Livvi app to enter the front gate, their own door as well as common areas. They can also get access to elevators, pay in the canteen, open parking gates and a lot more.

- 1 Download the app
- 2 Register the device
- 3 Receive digital key
- 4 Unlock the room

Main functions

- Unlocking of apartment door, entrance doors and common doors
- Contact information and map
- More security – encryption, plus the password protection the phone itself provides
- Intuitive app
- Unique user experience
- Battery status report
- Maintenance requests

Benefits for the residence administrator

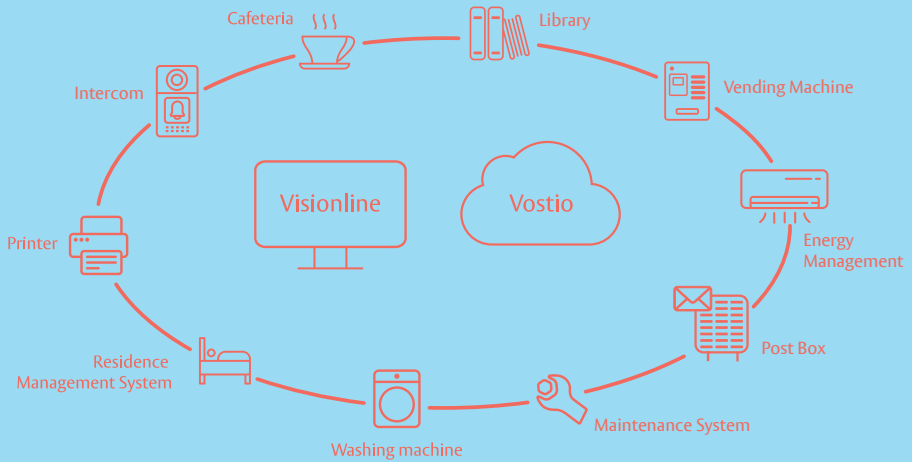

- More security – no risk of sharing cards or subletting
- Ease arrival and 'changeover day' stress – no more queues
- Simple, intuitive and centralized oversight
- Seamless upgrade – easy to add to existing Vingcard locks
- Easy to combine with user credentials – cards and fobs
- Lock battery status reporting for efficient maintenance

FULL SOLUTION

One seamless solution that brings everything together, ensuring simple security.

A FULL SOLUTION THAT INCLUDES

- Access management software
- Electronic locks
- Credentials
- Mobile access
- The latest contactless and encryption technologies
- In the cloud and on-site
- Safes and door hardware

Environmental Initiatives

Environment friendly
RFID Keycards

EPD Certificated Locks
Environmental Product Declaration

Access Management
Integrated Energy Management

Vingcard Locks
Expanded lifespan of batteries

Vostio – At home. In the cloud.

Vostio brings residence management to the cloud. Future proof access management systems, with automatic updates and one simple, central hub for all operations.

KEY BENEFITS

- No local servers – automatic upgrades and security patches
- Scalable and modular to fit any size of operation
- Designed with security and privacy in mind, GDPR (General Data Protection Regulations) compliant
- Local fallback functionality – able to operate if internet access goes down

Visionline – On premise solution

Visionline is highly flexible, working with both offline and online doors. Online solutions can be created by combining wired ethernet and wireless ZigBee locks. For Visionline wired online, PoE (power over ethernet) can be used. Visionline has extensive reporting capabilities from low battery reports to full audit trail.

Software Packages

ADVANCED ONLINE MODULE

- Door ajar alarm
- Inside opening audit trail
- Wandering/sequential intruder alert
- Block cards per user group or section
- Live card tracking
- Insert maintenance report card
