

Encoders Lifecycle information

General Availability: From Market availability to Phase out announcement.

End of Project Sales:

Encoders – Up to 1 year if a compatible replacement is not available.

AMS and Spare Parts Support Period:

Network Equipment – Up to 7 years for a direct replacement or an alternative product

End of Life: No commitment.

Note: During the Product Life Cycle period, spare parts might be replaced, become obsolete or retired due to different reasons, for instance from our suppliers' side. If you detect/identify an item within the spare part list that is not available for sales, please contact our customer service for clarification.

For detailed information regarding a certain product phase out please contact your local representative of Vingcard.

Encoder hardware Lifecycle Table

PRODUCT NAME	MODEL	HW/SW/FW/ Protocols	LAUNCHED YEAR	PHASED OUT YEAR	END OF SPARE PART PERIOD
HID/supported by Vingcard	Omniquey 5021	HW	2010s	2016	2016
	Omniquey 5021	SW/FW	2010s	2016	2016
